TOOLS

Quality Tools made exclusively for us in good old USA!

Description	Price
"Waffle" Tool: For setting body rivets. This tool will reproduce the distinctive pattern found on original Ford body rivets on late T, A, and early V8. To be used with a .401 D. shank air tool. Air Tools are available from large hardware stores, including Sears, Harbor Freight etc.	\$25.00
3/16 Brazier Head Drill Tool: For removing old rivets from floor pans and bodies. Finds center of old rivet and guides drill.	\$20.00
Bucking Bars: Used for holding the head of 3/16 D. rivets while it is set from the opposite side with a "waffle" tool. 3/16 brazier head. Stress proof Steel	\$20.00
Bucking Bars: Used for hot forming a head on the back of round head frame rivets. Instructions included with tools. See "notes" for recommended length to allow for head. Used for final forming of heads.	
3/16 Round head, Stress proof Steel,	\$20.00
7/32 Round head, Stress proof Steel, also for 3/16 RH alum. rivets	\$20.00
1/4 Round head, Stress proof Steel,	\$20.00
5/16 Round head, Stress proof Steel,	\$20.00
3/8 Round head, Stress proof Steel,	\$20.00
7/16 Round head, Stress proof Steel, (Stress proof is strain tempered 1144.)	\$20.00
Air Tools for setting Round Head Rivets: Used for final forming of heads. I think these work GREAT!
