## Special "T" Rivets

Description	Typical Application / Note	Price
<p>"Transmission Drum Rivets" are confusing to say the least! Best to order by the size you need rather than the application. .250 X 7/8 or .265 X 7/8 are safe choices!</p>		
.219 D X 3/4 L 60 Deg Countersunk Head	Reverse Drum (3302) to Reverse Gear (3303) Low Speed Gear (3308) to to Drum (3307) Early Ford Part No. 3305 Factory No. 708 Must be Machined After Assembly	\$0.75
.219 D X 7/8 L 60 Deg Countersunk Head	Reverse Drum (3302) to Reverse Gear (3303) Low Speed Gear (3308) to to Drum (3307) Early Ford Part No. 3305 Factory No. 708 Must be Machined After Assembly	\$0.75
.250 D X 7/8 L 60 Deg Countersunk Head	Low Speed Gear (3308) to to Drum (3307) Late Trans Brake Drum (3312) to Brake Drum Shaft (3319) Trans Drive Plate (3321B) to Brake Drum Shaft (3319) Ford Part No. 3310 Factory No. 711 Oversized for Low or Reverse Drum to Gear Must be Machined After Assembly	\$0.75
.265 D X 7/8 L 60 Deg Countersunk Head	Oversized for all applications. Save those drums & hubs with worn holes! Must be Machined After Assembly	\$3.00
9/64 D X 7/16 Lg. BRASS Oval Head Split	Model T Transmission Bands Kevlar Bands	\$0.30
